WINNIPEG, June 30.

John W. Foster of Illinois is the new United States secretary of state.

The foreign relations committee of the United States senate has reported favorably on a bill imposing \$2 a ton toll on freight and \$5 on each passenger passing through the Soo Canal on Canadian vessels.

A recent arrival at Fort Macleod from British Columbia was found to have the smallpox. The police have taken charge of him and erected tents for an isolated hospital. The Indians have taken to the hills.

Henry M. Stanley attempted to address a meeting of Lambeth, England, electors last night. Mrs. Stanley was present. Both were hooted and hustled and had to leave. Mrs. Stanley became hysterical.

In the congress of the chambers of commerce of the British Empire yesterday Sir Chas. Tupper's motion, in favor of preferential duties, was defeated by 79 to 34. Tupper changed the vote and a ballot will be taken to-day. Medley's motion favoring free trade generally was then discussed, but no vote was taken. From the speeches made it is clear that the great majority of the delegates from the United Kingdom favor free trade, while those from the colonies favor protection.

CAPT. DAWSON has surveyed a trial line for the proposed spur track to the flat opposite town. He gets a line easy of construction with a drop of two feet in the hundred.

R. A. BENNETT, C. P. R. agent at Smith's Falls, Ont., arrived on Monday's train, accompanied by Mrs. Bennett, who is a sister of Alex. Taylor, government telegraph operator at Edmonton.

THE distribution of prizes in the school of the convent of the Faithful Companions of Jesus, Edmonton, took place on Monday last. An attractive programme of singing, recitations and plays was rendered before the distribution of prizes began. There was a good attendance of visitors.

BUTTER is being marketed in large quantities, so that there is a glut. Several merchants are furnishing crocks and tubs to farmers to pack butter in, and are purchasing it at from 15c to 20c. Roll butter retails at 20c, but the amount of roll butter being consumed is a very small proportion of the total make of the district.

A CORRESPONDENT, writing from Spokane, Washington, U. S. A., says: I am greatly pleased to receive the BULLETIN twice a week and to compare the temperature of Edmonton with that of places more to the south. This season being unusually late on both sides of the Rockies it is interesting to note that the Edmonton temperature (north of the mountains) compares most favorably with anything above latitude 40°.

D. W. MOORE, representing the Western Soap Company of Calgary, was in town by Monday's train pushing the business of the factory, which began working this spring. The output is 300 boxes of from 45 to 60 pounds each a week. Two grades of soap, electric and laundry, are made and have given good satisfaction since their introduction, a little over a month ago. This enterprise derives its advantage of location at Calgary from the large amount of tallow available there, on account of the heavy butchering business carried on at that place.

A MEMBER of the party of Dakota delegates who visited Edmonton on Thursday and Monday last, informed the BULLETIN that he resides in Pembina County, North Dakota, near the Manitoba line. Being in the Red River valley wheat has always given a fair return and land is good value there, ranging from \$15 to \$25 an acre for good improved farms. The majority of the people of the county are Canadians. Taxes are high; the aggregate of school, township, county and state tax being 6 cents on the dollar,—not 6 mills, but 6 cents. On 400 acres of land, with stock and improvements, this gentleman paid last year \$125 taxes. The rate is not quite as high as it appears, while it is more unfair than it appears, for while land worth \$15 to \$20 an acre is rated at only \$5, personal property is rated at nearly its full value, placing the burden therefore more heavily

ly on the poor man holding chiefly personal property, and proportionately relieving the rich man, whose wealth is in land. The bulk of the taxes outside the support of schools, which are numerous, seems to go to the support of county officials. As a sample, the county treasurer has a salary of \$2,000 a year, but is not expected to do any work for the money, as he is allowed a deputy at \$1,200 a year, and an assistant, if necessary, at \$900.

DAKOTA NEWS.

A copy of the Grafton, Brown county, South Dakota, Independent, contains a letter from a discontented ex Dakota settler in the York colony on the Manitoba Northwestern railway. The letter is dated May 7th and mentions that the ground was still frozen at that date—a straight lie, of course. There had not been any spring rain, but plenty of snow, but strange to say the melting of the snow made no moisture. As a matter of fact a heavy fall of snow in the spring will moisten the ground more than all the snow of winter. He says the Dakotans there are all discouraged on account of the late spring and short season; sighing for the banana groves—and cyclone cellars—of Brown county, no doubt. By the way the paper containing the letter alluded to has the following items of interest, date, May 20th: "As we go to press an able bodied blizzard is prevailing. Pretty rough for May 20th, but far preferable to the floods which some parts of the country are experiencing."—"A heavy frost Wednesday evening slightly injured the wild buckwheat crop." "The artificial rain makers trial, which was to occur at Doland to-day, has been postponed until June 20th on account of the wet weather." "The sun shone Sunday and part of Monday, but Monday evening the rainy period started afresh." "J. H. Pasco arrived from New York last week. He shipped out an artesian well boring outfit and will probably tap the water supply beneath us." A Sioux City, Iowa, (near the Dakota line) despatch, in the same paper, mentions that 200 people were drowned and 4,000 homeless by flood. A hail insurance company, with a capital of \$1,000,000, is advertised. The paper contains the advertisement of three mortgage sales to balance one notice of a home-steader having proved up on his claim. The mortgages were for \$471, \$1,046 and an attorney's fee of \$50 and \$627 respectively.

SUPREME COURT JUDGMENTS.

At the last sittings of the supreme court Judge Rouleau reserved judgment on several cases. He has just delivered judgment in the following:

Daly vs. Robertson.—An action brought by Philip Daly against Walter Scott Robertson to have a strip of land 33 feet wide west of the lot occupied by Vance & Co. as a butcher shop declared to be a public highway or a private way. The judge decided in favor of the plaintiff, declaring the strip to be a public way, and ordering defendant to pay the costs of the action. Beck & McNamara for plaintiff; S. S. & H. C. Taylor for defendant.

Macdonnell vs. Robertson.—An action brought by Wm. Macdonnell against deputy Sheriff Robertson, who is indemnified by Norris & Carey for the seizure under an execution of Norris & Carey against Tupper of furs claimed by Macdonnell & Co. The defendant raised the objection that the plaintiffs were bound to give the deputy sheriff a month's notice of action. This objection only was argued at the court. The judge decided in favor of the plaintiff, holding that no notice of action was necessary, and ordering the defendant to pay the costs occasioned by the objection. Beck & McNamara for plaintiff; S. S. & H. C. Taylor for defendant.

Magrath vs. Thibaudeau.—An action to declare certain executions in actions issued against P. Heiminek, registered against lots sold by Heiminek to the plaintiff to be clouds on the plaintiff's title. The judge decides in favor of the plaintiff, and gives him the costs of the action. Beck & McNamara for plaintiff; S. S. & H. C. Taylor for defendant.

EDMONTON BULLETIN, JUNE, 30, 1902

THE LAND OFFICE.

Sir John Thompson's many friends and admirers in Edmonton will be pleased to know, on such competent authority, that the recent outburst of popular feeling on the question of the removal of the land office was the work of "a few people who were desirous of making a disturbance." That Sir John Thompson made such a statement is clear proof that he was misinformed, and therefore entirely misunderstood the situation. More than a "few" people took part and they were not "desirous of making a disturbance." They did not take action because they were desirous of making a disturbance. The business and professional men and householders generally had nothing to gain and everything to lose by a disturbance, and these were the men who took part in whatever disturbance there was. Had they believed that the objectionable action was being taken with the full knowledge and consent of the government it is not at all likely that they would have employed or countenanced the employment of physical force to oppose it. It was because they were convinced, from the peculiar course taken in the attempted removal, that the government was not cognizant of it, and that it was merely a side speculation that they opposed it so promptly and strongly. That they were right the flat contradiction between the action and advertisement of the agent and the assurances received from Ottawa, is proof. The government, as a whole, was not cognizant, and did not approve of the proposed action of the agent, and had it not been for the prompt action of the people of Edmonton they never would have known the complete facts of the case. Now that they know them it will be in order for them to find out just to what extent private interest and influence had to do with this very public matter, and to show their good faith by giving effect to the assurances conveyed in the telegrams of the ministers of interior and public works, namely, that the land office will be efficiently maintained in its present location and that permanent offices will be built here. Even yet a number of the papers in Manitoba and the Territories are under the impression that the office has been removed, but none of them attempt to justify the supposed removal. It was too plainly a case in which the interest of

the pioneer, investor and settler was being subordinated to that of the speculator, and, as such, could not be justified. In this connection it may not be out of place to remark, that the policy of subordinating the interest of the settler to that of the speculator has been followed too long in dealing with the Northwest,—that it, has been a losing game all around during the past ten years,—that the people are now beginning to understand what has hurt them, and that they won't stand any more of it. If the word had gone forth that in this important case the government had decided to push the interests of the speculator at the expense of the settler, the country would have lost thousands of settlers in consequence. The new settler of to-day is the old settler of all after years, and if he sees that the rights of others are being disregarded he will say, "My turn may come next—this is no place for me," and he will go elsewhere. The contented settler is the best immigration agent and the discontented one the strongest influence against immigration. Nothing will make any free man discontented so quickly as an attack upon his vested interests, however slight.

On the motion for the third reading of the Dominion Lands act, Davin moved that the bill be not read the third time, but that it be referred back to the committee for the purpose of changing clause three so as to enable cancelled pre-emptions to be homesteaded like ordinary homesteads. The motion carried. The bill as amended passed the committee, and was read the third time.

ANOTHER PARRY SOUND OPINION.

The Sundridge, Ontario, Echo of June 16th, contains a very suitable letter from G. T. Montgomery of the Parry Sound colony in reply to certain letters written in disparagement of the Edmonton district by other members of the colony under date of May 25th. Mr. Montgomery says: "I like the country very much—and every day I like it better. The soil is far ahead of my expectation. I have never seen in any part of Ontario such soil—On my arrival here the weather was very mild and warm, but in a few days it turned cold with strong wind and slight showers of snow—There seemed to be frosts almost every night until lately, but since the frost has left everything seems to grow marvelously. Only about two weeks ago the country was nothing but a black looking desert, burned north, south, east and west as far as your eye could behold. At present the country is a beautiful green color, the grass is six inches long and the wild strawberry vines are in bloom and many other wild flowers." Mr. Montgomery goes on to complain of the failure of the government to fulfil its promises to have the township surveys renewed, and this really was the chief ground of complaint with the members of the colony as it delayed their getting on their land and thereby caused them considerable inconvenience and loss. However since Mr. Montgomery's letter was written several survey parties have arrived and have re-surveyed a number of townships. Mr. Montgomery closes his letter with the following sound advice: "In my opinion the colony scheme is a good one if the heads of families would come in the fall, secure their lands, build houses and provide feed for their cattle and then bring their families in spring two weeks earlier than we did. Then they would be in a position to live the next season, and I will guarantee if this was done you would hear no bad reports of the country."

THE Canada Western Railway Company deposited half a million dollars as security for the commencement of that railway which is projected over one of the old lines of the C. P. R. Starting from Victoria, on Vancouver Island, it crosses to the main land by a bridge and passes through central British Columbia to the Jasper Pass. It is expected to connect in the Northwest with the Manitoba Northwestern or Northwest Central. The company is of Chicago capitalists and receives an immense land grant from the British Columbia government, from which their charter is derived. If construction is not commenced at once the charter will be forfeited.
